

The Wisconsin no call list has been great. Very seldom do I receive a call at dinner time about products we have no interest in. If anything I believe it should be strengthened to ask the consumer the type of calls they want to receive. That way if they want to get calls from businesses that they had done business with in the past they could. Many times the constant telemarketing could be the reason they changed businesses in the first place.

Please keep the Wisconsin no call list as it is. There are many of us that enjoy a quiet family time at dinner.
